

Teaching Security Lesson 2: Authentication

Assignment: Create a Password PSA

Create a public service announcement about good passwords. Your audience is students, teachers, and staff at your school. The format could be:

- Flyer or brochure
- Poster
- Slide presentation
- Video

Your PSA should include:

- The specific password policy for your school or school district
 - Minimum requirements
 - Examples of passwords that meet the requirements
 - How often passwords must be changed
- Why it is important to have a strong and unique password, including:
 - Which passwords need to be most secure
 - Why you shouldn't use the same password for all of your accounts

You could also include:

- Instructions for how to select strong passwords, with examples (beyond the minimum requirements)
- Ways to keep track of all those passwords
- Information about password managers, two-factor authentication, or other extra protection tools
