

Passwords and YOU!

Albemarle High School

Importance of a good Password!

Your password along with your accountID are all it takes to find out your grades, sign up for Patriot Period, and even your home address. It is important to change your password, because this personal information is part of your identity which you want to keep secure from other individuals.

A good password is something that would be difficult for someone else to guess, but that you are able to easily remember. You should not write your password down anywhere, and never give your password to anyone, except for your parents.

A good password has over 15 characters; adding special symbols, or characters does not make a short password more secure. Choose your password wisely!

Password Rules at AHS

Your password must meet the following criteria

1. be at least 8 characters
2. include letters and numbers
3. include at least 1 capital letter

As a student you must change your password at least once per school year on or before September 15th of each new school year.

Password Reset

Find the reset password button on the resources page.

To use AD Self Password Reset you first need to enroll, once enrolled you can reset your password and unlock your account by answering several personal security questions.
